FAQ

General Program Information

WHAT IS INVOLVED IN THE POST-COURSE IMPLEMENTATION PHASE?

Participants will implement learned techniques in their clinics, with case reviews and guidance from mentors to ensure better clinical outcomes. This will be explained in the 2 day event and will be conducted online..

HOW LONG DOES THE POST-COURSE PROGRAM LAST?

The in-clinic mentorship and case review phase typically span 60 days where participants are encouraged to submit at 2 cases each where they will use SDF and crowns, space maintainers and use files for pulpectomy procedures . There will be a guidance on treatment planning submitted and answers for all queries that come up during the treatment. This is completely managed online with FB and WhatsApp integration. Participants will be guided on procedures to be followed.

WHAT SUPPORT IS PROVIDED DURING THE POST-COURSE PHASE?

Participants receive case review feedback, mentorship, and guidance from experienced pediatric dentistry mentors.
